Omar Sabry Khalil

Frontend Developer (React js)

Alexandria , Egypt | Portfolio | Omar Sabry | Omar Sabry | omarsabry425@gmail.com | 01286183936 | Postponed

PROFILE

As a skilled web developer, I specialize in creating dynamic and responsive websites tailored to meet your unique needs. With expertise in front-end technology, I deliver solutions that enhance user experience and drive business results.

EDUCATION

Production Department Oct 2022 – present
Faculty of Engineering

PROFESSIONAL EXPERIENCE

Programming Instructor Apr 2025 – present
As a Programming Instructor at Black Horse Courses, I deliver comprehensive and engaging courses in both C++ programming and Frontend Web Development

SKILLS

Programming Languages:
- C , C++, C#, JavaScript, Type Script .

Frontend Technologies:
- HTML5 , CSS3 , Bootstrap , Tailwindcss , jQuery , Sass , Java script , React Js , Next Js , and Angular

Concepts:
- OOP Concepts, SOLID Principles, Design Patterns, Algorithm, Data Structures.

Soft Skills:
- Learning Mindset , Adaptability to Changes , Collaboration and Teamwork.

PROJECTS

StackVerse May 2026
Programming Education Platform
- StackVerse is a modern web platform for software solutions and programming education, built using React.js, Next.js, TypeScript, Tailwind CSS, Framer Motion؛
- The project focuses on performance, responsive design, smooth user experience, multilingual support, and modern UI/UX principles.

Task Stream Oct 2024
Assignment tracking system
- Collaborated with the ACM Student Chapter team to develop a task management system for computer engineering students.
- Built the frontend using React.js, focusing on user experience, state management, and responsive UI.

Shopetto Jul 2024
E-commerce web application
- Developed a responsive e-commerce website with a focus on user experience and conversion rate optimization, implementing features like a dynamic product catalog, secure checkout, and user accounts.
- This system is built with Repository Pattern using HTML5, CSS3,Java script, Tailwindcss, React Js ,and Next Js.

Tic-Tac-Toe Game Jul 2024

- I built a classic Tic-Tac-Toe game, showcasing my skills in Java Script by implementing game logic, user input, and a visually appealing interface.
- This project demonstrates the ability to break down problems, apply logical reasoning, and utilize JQuery for efficient application development.

Bank system Apr 2023

- Developed a bank system project using C++, focusing on object-oriented programming (OOP) principles and data structures to manage customer accounts, transactions, and banking operations efficiently.

COURSES

Programming Fundamentals Diploma Dec 2023 – May 2024
Route IT Training Center

Frontend Web Development Diploma Mar 2024 – Aug 2024
Route IT Training Center

ORGANIZATIONS

ACM Alexandria Student Chapter Jul 2024 – Aug 2025
Member

- Implemented a dynamic programming solution for the knapsack problem during a personal project to optimize resource allocation.
